Struggle for Freedom

Satyagraha

Mohandas Karamchand Gandhi effectively fought for freedom with his principles of truth, non-violence, and courage. Advocating Satyagraha (Sanskrit for "truth and firmness") launched his movement of passive resistance to Britain. When, in 1919, Parliament passed the Rowlatt Acts, Satyagraha spread through India, gaining millions of followers. By 1944 the British government agreed to independence on condition that the Muslim League and the Congress Party should resolve their differences. Gandhi stood steadfastly against the partition of India but ultimately had to agree.

In 1888 Gandhi studied in England. He was then called to the bar in June 1891 and left London for India, when he learned that his mother had died while he was in London and that his family had kept the news from him.

His attempts at establishing a law practice in Bombay failed because he was too shy to speak up in court.
